

FIND THE TEAM THAT SHAPES YOUR COMPANY'S FUTURE

THE TALENT WAR IS MORE DYNAMIC THAN EVER

“How do I find an AI expert who’s also a good manager?” “Can I use my data to source better talent?” “How do I also tap into candidates in tier 2 & 3 cities?” Today’s firms grapple with unique talent questions. Here are the top challenges they face. And why you may need a recruiting transformation.

- **Accuracy:** Low employability and an inadequate fit between company intent and candidate capability reduce hiring accuracy.
- **Efficiency:** If accuracy is indeed possible, then firms struggle to create accuracy at scale in a way that manages costs and timelines.
- **Spread:** Firms are expanding and need candidates in tier 2 and 3 cities as well, a challenge many recruiters are not prepared for.
- **Human factor:** Amidst all this complexity, it gets hard to give candidates a good experience, failing which they can renege.
- **Agility:** Audience needs are ever-evolving. Recruiters locked into outdated systems can only go so far.

In this environment, firms need a recruiting engine that’s **systematic and dynamic, scalable and sensitive.**

SO WHAT IS OUR SOLUTION? HR INSPIRED BY SCIENCE

Recruiting

Executive search

Recruiting top executives can be tricky. You need specialists who can manage large projects and at the same time own the P&L. You need leaders who are as much at ease with quality management as they are with diversity and inclusion. You need a CFO who is not only a seasoned professional but also a great fit for your culture; this is essential to drive the Board agenda for the future. CIEL understands your context, uses its experienced team to assess the fitment, and engages the candidate meaningfully till onboarding and beyond with its 30-60-90 day contact plan.

100+ annual CXO hires | Balance of capability and cultural fit | Tech-enabled search and servicing | Wide reach

Permanent recruitment

You need talent at different levels in your organisation to execute the strategy and translate the plans into reality. You need candidates whose resumes not only match the job description (JD), but go deeper than that. CIEL's team is trained to understand the unique context that defines each JD; we go beyond the resume of a candidate to understand his or her CCA (context, competencies and aspirations). CIEL brings you candidates whose CCA match your JD and context in the best possible manner.

3000+ hires in a year | CCA match | Sector focus | Analytics driven matching algorithm | Wide reach

Recruitment process outsourcing (RPO)

When you recruit in large volumes to ramp up a routine or greenfield project, you need a smart strategy and rigorous execution. You need a large team; building that in-house is expensive and not in strategic alignment with your long-term business priorities. CIEL sets up a team and the processes to make sure that your needs are delivered reliably - from end-to-end recruiting to an à la carte of processes. KPI-based outcomes are tracked and managed to meet the requirements.

10+ RPOs active round the year | KPI focus execution | Tech-inspired efficiency drive | Wide reach

Staffing

As companies grow, they need to expand their workforce in sales, production, service and business support. At the same time, they need flexibility in their headcount so that they are able to match the peaks and troughs of their demand cycle. They cannot always tap into the talent pool in tier 2 and 3 cities. If they can, they do not have the on-ground presence to engage candidates and scale up the process. Our spread and technology ensure our staffing solutions help your business gain momentum.

General staffing

CIEL provides Flex staff with varied skill-sets on its payroll across multiple locations for Engineering, Sales, Customer Service, Admin, Secretarial, Office Support etc. We call them our Deputies. They work at our client organizations for a specified period of time across functions and levels. We manage their end-to-end employee life cycle with an option to be hired on the client payroll, offering complete flexibility. Our tech-enabled transparent processes create competitive efficiencies in deputy engagement and significantly reduce employee Query Resolution Time.

Professional staffing / IT contracting

Companies look for specialists for a fixed period to address specific project needs. Sometimes, they need highly skilled professionals to work on fixed term contracts with the option of hiring them on their permanent payroll at a later date. CIEL's recruiting power, backed by reliable systems and processes, attracts highly skilled people on our payrolls and deploys them for fixed periods to client locations.
