

FIND THE TEAM THAT SHAPES YOUR COMPANY'S FUTURE

THE TALENT WAR IS MORE DYNAMIC THAN EVER

“How do I find an AI expert who’s also a good manager?” “Can I use my data to source better talent?” “How do I also tap into candidates in tier 2 & 3 cities?” Today’s firms grapple with unique talent questions. Here are the top challenges they face. And why you may need a recruiting transformation.

- **Accuracy:** Low employability and an inadequate fit between company intent and candidate capability reduce hiring accuracy.
- **Efficiency:** If accuracy is indeed possible, then firms struggle to create accuracy at scale in a way that manages costs and timelines.
- **Spread:** Firms are expanding and need candidates in tier 2 and 3 cities as well, a challenge many recruiters are not prepared for.
- **Human factor:** Amidst all this complexity, it gets hard to give candidates a good experience, failing which they can renege.
- **Agility:** Audience needs are ever-evolving. Recruiters locked into outdated systems can only go so far.

In this environment, firms need a recruiting engine that’s systematic and dynamic, scalable and sensitive.

SO WHAT IS OUR SOLUTION? HR INSPIRED BY SCIENCE

CIEL enables clients to attract talent that can shape their firm's future. We deliver this through our 'HR inspired by science' model. It involves a combination of science, scale and sensitivity to enable clients to attract the right talent at the right time and cost, anywhere in India. In this way, we help clients cut through the complexity and stay ahead of the curve.

Recruiting

Executive Search

Recruiting top executives can be tricky. You need leaders who are as much at ease with quality management as they are with diversity and inclusion. You need a CFO who is not only a seasoned professional but also a great fit for your culture; this is essential to drive the Board agenda for the future. CIEL understands your context, uses its experienced team to assess the fitment, and engages the candidate meaningfully till onboarding and beyond with its 30-60-90 day contact plan.

Permanent Recruitment

You need talent at different levels in your organisation to execute the strategy and translate the plans into reality. You need candidates whose resumes not only match the job description (JD), but go deeper than that. CIEL's team is trained to understand the unique context that defines each JD; we go beyond the resume of a candidate to understand his or her CCA (context, competencies and aspirations). CIEL brings you candidates whose CCA match your JD and context in the best possible manner.

Recruitment Process Outsourcing (RPO)

When you recruit in large volumes to ramp up a routine or greenfield project, you need a smart strategy and rigorous execution. You need a large team; building that in-house is expensive and not in strategic alignment with your long-term business priorities. CIEL sets up a team and the processes to make sure that your needs are delivered reliably - from end-to-end recruiting to an à la carte of processes. KPI-based outcomes are tracked and managed to meet the requirements.

Staffing

As companies grow, they need to expand their workforce in sales, production, service and business support. At the same time, they need flexibility in their headcount so that they are able to match the peaks and troughs of their demand cycle. They cannot always tap into the talent pool in tier 2 and 3 cities. If they can, they do not have the on-ground presence to engage candidates and scale up the process. Our spread and technology ensure our staffing solutions help your business gain momentum.

General Staffing

CIEL provides Flex staff with varied skill-sets on its payroll across multiple locations for Engineering, Sales, Customer Service, Admin, Secretarial, Office Support etc. We call them our Deputies. They work at our client organizations for a specified period of time across functions and levels. We manage their end-to-end employee life cycle with an option to be hired on the client payroll, offering complete flexibility. Our tech-enabled transparent processes create competitive efficiencies in depute engagement and significantly reduce employee Query Resolution Time.

Professional Staffing / IT Contracting

Companies look for specialists for a fixed period to address specific project needs. Sometimes, they need highly skilled professionals to work on fixed term contracts with the option of hiring them on their permanent payroll at a later date. CIEL's recruiting power, backed by reliable systems and processes, attracts highly skilled people on our payrolls and deploys them for fixed periods to client locations.

NAPS

National Apprenticeship Promotion Scheme (NAPS) is a scheme launched by the Government of India to provide financial support to establishments undertaking Apprenticeship training. CIEL takes care of the client's end-to-end arrangements for the NAPS program, from the mobilisation of apprentices to final assessment and certification.

Jombay is a “made in India, made for the world” tech platform help companies identify and build great managers and leaders. Built by a team of Business Psychologists, Engineers and Product Entrepreneurs, more than 200,000 managers and leaders from 500+ marquee organisations undergo Jombay’s Assessments & Development programmes every year. This platform unifies talent practices, from talent acquisition and talent management to learning.

HRMS PLATFORM

HFactor offers enterprise software to automate and simplify HR processes, and comes with decades of hands-on experience. Integrum provides a unified HR platform that transforms organisations and make them future-proof

CIEL Technologies was incorporated in 2021 with the objective of helping companies set up teams of highly skilled professionals and get the relevant and desired output from them.

Right from setting up a new office space and the associated infrastructure to building the right team and establishing a business process, CIEL Technologies has been offering Managed Services Programmes (MSPs) for companies in Engineering, IT, Infrastructure, Consumer Products and Financial Services sectors. The programme is driven by agreed service levels (SLAs) and governed using key performance indicators (KPIs) agreed for the programme.

MANAGED SERVICES PROGRAMMES

Started in 2015 by the Founders of Ma Foi, CIEL has grown to be one of India's leading companies integrating the domains of skilling and employment. CIEL Skills and Careers has a deep understanding of individual and collective gaps in employability and is on a mission to connect employers and the talent pool of skilled folks in different parts of the country through its app, CIEL Jobs as well as the physical infrastructure of 83+ offices. CIEL Skills and Careers engages with various Government agencies as well as the CSR wings of corporates to mobilise students, train them 'Job Ready' and place them in meaningful jobs

SKILL DEVELOPMENT
